HOME AUTOMATION

Safety | Security | Convenience | Entertainment | Energy efficiency

Cairos Home Automation

Our Home Automation system ensures everything that makes convenient living possible. This includes safety, security, and comfort along with energy conservation.

Our provision of IOS and Android-based applications allow you to operate switches, curtains, blinds, remote door locks, air conditioners, media devices, camera and video door phones from one place. We offer you premium security by giving you the option to avail of automatically monitored sensors in case of smoke, gas leak, door intrusion and more. Our devices give you an opportunity to live flexibly, uninterrupted and efficiently.

Download or update the Cairos® Home Automation app free from the Google Play or App Store

Cairos Home Automation

SAFETY & SECURITY

Safety Sensors

Our industrial grade smoke and gas sensors prompt an alert on your smartphone and your local alarm is set off as soon as there is a gas leak or smoke emission. It is also the first home alarm which you can turn off from your phone without the use of any extra hardware.

Smart App, Smoke sensor, Gas leak sensor & Local alarm

Security Sensors

Any kind of activity that signifies encroachment break, buttons and beam detectors, will set the local alarms in motion. A notification will be sent to the mobile phone as well.

Smart App, Key Fob, Panic Button
Glass break, Door intrusion & Local alarm

Video Door Phones

The smart applications that you can avail of with our products will help you to view the visitors at the entrance of your door before letting them in. With us, you have no more unpleasant surprises.

Smart App, Video Door Phone & Indoor monitor

Cameras

With our CCTV surveillance device, you can now view activities around your home even when you are away from home. All made possible with just one click of our smart application installed on your phone.

Smart App & IP Camera

COMFORT & CONVENIENCE

Smart Switches & Outlets

The Lights and Fan Control and the Smart Touch C-Panel allow you to increase or decrease the glare of your light or regulate the speed of your fan according to convenience. Turn your appliances on or off with our Smart Plugs. From garden irrigation and washing hands to opening garage doors, everything could be done with just one touch.

Smart App, Touch switch & EzRemote

Motorized Curtain & Blinds

Use your smartphone or remote control to draw curtains or blinds from a distance.

Sliding Doors

Get an easier access to your house with our automatic sliding door which could be controlled by Android or IOS application. It opens as soon as it feels your presence and lets you in before sliding shut behind you.

Smart App, Curtain Control & Lux Sensor

Remote Door Locks

Our smart Biometrics Locking System can read fingerprints, smart card and can answer to commands generated by Android/IOS Application. Biometric smart locks bring keyless convenience to open your door.

Smart App &
Yale automated
door lock

Automatic Garage Door

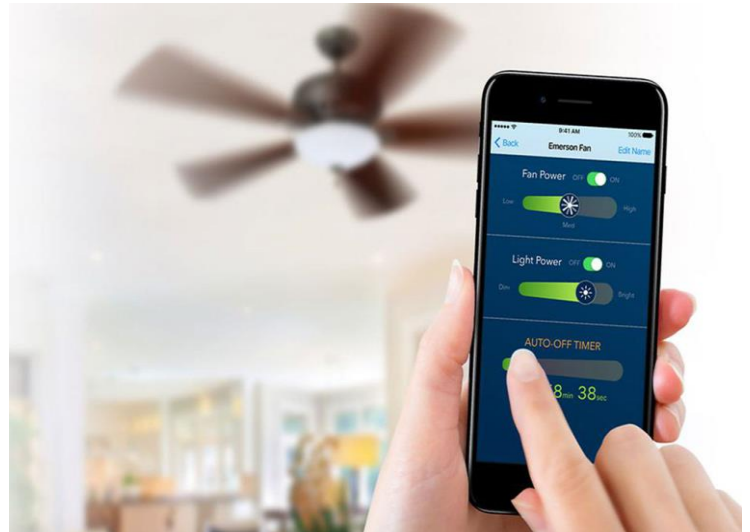

This device which could be operated by a mobile phone application lets you open the garage without the need to get up.

Smart App

ENERGY EFFICIENCY

Sensor Control of Lighting & Devices

The Energy Management System helps you to reduce your electricity bill. The Smart Electricity Meter checks energy consumption on a regular basis. Control lights and fans of your own accord with our automated lights and fans control.

Wireless motion sensor & Lux Sensor

Smart Air Conditioning Controls

Nor a chilled room temperature would make your teeth clatter; neither would you have to wake up at intervals to control your AC. Our Climate Temperature Control will keep your room temperature favorable 24x7.

Smart App & Motion Sensor
