

Cairos® | SMART
AUTOMATION

HOTEL AUTOMATION

Guest Comfort | Energy Efficiency | Centralized Management

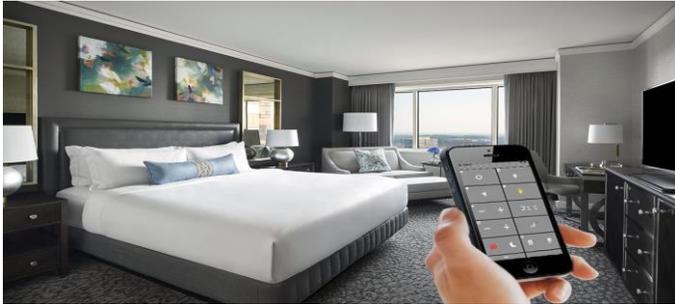

**DELIGHT YOUR GUESTS!
IMPROVED YOUR BOTTOMLINE**

Cairos' Hotel Automation gives the opportunity to transform a hotel into a secured and impenetrable haven of luxury and premium comfort.

Control of gadgets inside the rooms could be done with remote controls and smart applications which the guests are provided with. Reduction of energy consumption could be made possible with our Energy Management System. Safety and security management could be undertaken through devices that can communicate centrally.

GUEST COMFORT

Guest Room Automation

Room appliances such as lights, fans, ACs and TVs could be controlled by the smart application.

ENERGY EFFICIENCY

Wireless Sensors for Lighting & AC's

Lights and Air Conditioners could be centrally controlled accordingly without interrupting the guests' comfort. The Smart Touch C - Panel is a single equipment to control every possible device that consumes electricity distributed across the hotel.

Automatic sensor water tap

You would no longer be required to turn the knob for water to flow. This device would auto-matically eject water as soon as one places his/hands near the outlet of the faucet.

CENTRALIZED MANAGEMENT

Safety Sensors

Restaurant Kitchens, Guest Rooms, Passageways, Bath-rooms, Storage areas and all areas where fire safety is important will be scrutinized and secured by our Smoke and LPG sensors. Central monitoring of sensors could be done by smart applications.

Integrated Building Management System [IBMS]

Maneuver hotel security with our appliances including CCTV, Video Door phone, Intruder Alarms and Smart Biometric Locking System, that keep your hotel under constant vigilance. Smart Electric Meters, Automatic Pump Controller help you to monitor electricity consumption, control supply and wastage of water across the facility.
